OBJECTIVE

College Freshman with an interest in STEM. Seeking an internship in research in Math, Computer Science, or robotics topics.

EDUCATION

Chatham High School - Class of 2025

Rutgers University - Class of 2029

Pursuing a Math/Computer Science double major

RELEVANT COURSEWORK

AP Physics 1

AP Physics C

AP Calculus BC

Honors Multivariable Calculus

Honors Chemistry

AP Computer Science Principles

AP Computer Science A

Advanced Robotics

Data Structures

Intro Linear Algebra

SKILLS

Mathematics

- Skilled in creating mathematical models

Computer science & Coding skills

- Python
- Java
- C++
- CUDA (GPU based programming)

EXTRACURRICULARS

Research - 2023

- Did a research project with Dr. Christian Hölbling from Wuppertal University, studying the properties of the double pendulum as well as various numerical methods. This involved parallel computing, multi-dimensional differential equations, and linear algebra. I wrote a single-author paper based on my results.

NJ Physics Olympics 2023 - 2024

- Worked in a team to compete in the New Jersey Physics Olympics hosted by NJAAP'T involving high schools from all around North Jersey. 2x First place winner.

American Mathematics Competitions (AMC)

- Participated in AMC, a nationwide math competition, from 2021-2025. Qualified for the American Invitational Mathematics Exam twice. Also participated in many university math competitions, including PUMaC, BrUMO, and SMT.

American Computer Science League Finalist of 2023

- Participated in the 2022-2023 ACSL contest, a contest testing students on concepts in computer science; invited to the finals.

Mathworks Math Modelling Challenge - 2024

- Competed in a team for a nationwide competition based on modelling real world events with data.

First Tech Challenge (FTC) 2024-2025

- Worked with a team in FTC to compete with other teams in NJ by building and programming a robot in Java to complete a certain objective.
